

## Help Out a New Study Focusing on How Children See Different Types of People!

Do you have a child between the ages of 4 and 5 years? Wonder how they see others around them?

If so, we have a new research study looking at social perceptions for children!

This study takes place at Duke University in Durham and the whole visit takes less than an hour to complete. You will get free parking and \$10.00 for participating and your child will also get to pick a toy as a prize to take home as well.

If you are interested, please email us at [DukeIDLab@gmail.com](mailto:DukeIDLab@gmail.com) or call us at (919) 660-5790.
